

ELEMENTIS

## Enhanced Performance Through Applied Innovation

Elementis has leading technologies for waterborne or solventborne industrial and architectural coatings, inks, adhesives and sealants.

### Rheology Modifiers for High Performance Sealants and Adhesives Systems.

**THIXATROL® for adhesives & sealants provide :**

- Lower activation temperature
- Enhanced extrudability, no thread formation
- Improved viscosity stability on storage
- Easier incorporation and safer handling
- Could be considered as a replacement for fumed silica
